EFFLORESCENCE **REMOVAL** IN FULLERTON, CA

USING RESTORE-N-PREP CLEANER

RESTORE-N-PREP

A masonry restoration detergent that requires no scrubbing! Simply spray on and rinse off efflorescence, and other mineral stains. Once surface is fully dry, it is ready to be sealed.

ABOUT THE PROJECT: The raised flower bed of this home in Fullerton, CA was covered in a thick layer of efflorescence due to minerals coming through the soil. The homeowner wanted to remove the efflorescence and then seal it to prevent it from coming back. After the efflorescence was removed, and the surface was fully dry, RainguardPro Efflorescence Blocker was applie to prevent the efflorescence from returning.
